

Micah Kelly

Successfully graduated from [SheCodes 18.0 event](#)

🌟🌟🌟🌟🌟 5/5 - Highly recommended

“I've tried to teach myself front-end development in the past, but it was so difficult for me to solidify what I learned. After taking the SheCodes Introduction course, I now have a very good basic understanding and knowledge of HTML, CSS, and JavaScript. As a new mom, it's really difficult to find time for myself, so it was really great that I can watch the videos and complete the challenges and homework on my own time. I highly recommend SheCodes because the format is really intuitive and helpful. I'm super excited to continue coding and learn more!”
